

Press Release: Last Call for Most Influential Women Award Nominations

Leesburg, VA, December 12, 2016: Women's Industry Network (WIN®) announced 2017 nominations for the prestigious Most Influential Women (MIW) Awards opened on Tuesday, November 1, 2016. The deadline for all nominations is Saturday, December 31, 2016. The winner(s) will be recognized at an awards gala held during the 2017 WIN Educational Conference, May 8-10, 2017 at the Westin Denver Downtown in Denver, CO. Nominations of women working in any segment of the collision repair industry across the United States and Canada are welcomed, and WIN membership is not a requirement.

Most Influential Women

Established in 1999, the Most Influential Women program has recognized over 80 women who have enriched the collision repair industry with their leadership, vision, and commitment to excellence. WIN acquired stewardship of the MIW program in 2013 and continues to evolve the program to align with WIN's mission to "enhance the role of women in the industry." The award recognizes women for their leadership in four areas: industry influence; professional accomplishments; mentoring and support for others in the collision repair industry; and for going beyond the requirements of their professional lives to give back to their communities. The 2017 nomination form may be downloaded from the WIN website at www.womensindustrynetwork.com.
