

KeysIQ by LKQ is an aftermarket alternative parts offering to address the changing market within the automotive industry. All these parts meet strict quality and performance standards. Through a combination of either Keystone internal quality assurance department and industry recognized certified and/or validated replacement parts programs, all manufacturers are audited, parts are tested and the manufacturers quality systems are reviewed.

- **Inventory** - A comprehensive database that contains more than 60,000 eligible SKUs.
- **Traceability** - All parts within the program are traceable (not just crash parts) through the manufacturer.
- **Availability** - More OE comparable parts means quicker cycle time, less loss cost, and improved customer satisfaction.
- **Compliance** - All parts are approved by our Quality Assurance team as well as CAPA and NSF.
- **Coverage** - All parts are covered by a limited lifetime warranty, and begins on the original date of purchase from LKQ and extends as long as the original owner or lessee of the vehicle possesses the vehicle. Terms and conditions apply. Consult with your insurer for further details.

Contact your local LKQ Business Representative to find out how KeysIQ by LKQ can help improve your business.
