

CA CODE OF REGULATIONS – TITLE 10, CHAPTER 5, SUBCHAPTER 9

§ 2698.91 Auto Body Repair Labor Rate Surveys

(a) An “auto body repair labor rate survey” is any gathering of information from auto body repair shops regarding what auto body repair labor rate the repair shops charge to determine and set a specified prevailing auto body repair rate in a specific geographic area.

(b) “Prevailing auto body rate” means the rate determined and set by an insurer as a result of conducting an auto body labor rate survey of auto body repair shops in a particular geographic area and used by the insurer as a basis for determining the cost to settle automobile collision, physical damage, and liability claims for auto body repairs.

(c) Any labor rate survey results reported to the Department of Insurance pursuant to Insurance Code section 758 shall include the following:

- (1) The name of each auto body repair shop surveyed in the labor rate survey;
- (2) The address of each auto body repair shop surveyed in the labor rate survey;
- (3) The total number of shops surveyed in the labor rate survey;
- (4) The prevailing rate established by the insurer for each geographic area surveyed;
- (5) A description of the specific geographic area covered by the prevailing labor rate reported.
- (6) A description of the formula or method the insurer used to calculate or determine the specific prevailing auto body rate reported for each specific geographic area.

Any confidential information not required by this section should be removed from the labor rate survey results prior to submitting the survey to the Department of Insurance.

(d) Insurers shall send the results of their labor rate survey to the Market Conduct Division of the Department of Insurance.

(e) The Department of Insurance will make the reports available upon written request to the Custodian of Record pursuant to the Public Records Act.

LABOR RATE SURVEY COMMENTS

This document contains the “auto body repair labor rate survey,” as defined by California statute, for Coast National Insurance Company, 21st Century Centennial Insurance Company, and Farmers Specialty Insurance Company.

Any labor rate survey submitted by a carrier must contain certain specific information as cited in California Code of Regulations, Title 10, Chapter 5, Subchapter 9:

§ 2698.9 (c) Any labor rate survey results reported to the Department of Insurance pursuant to Insurance Code section 758 shall include the following:

- (1) The name of each auto body repair shop surveyed in the labor rate survey;
- (2) The address of each auto body repair shop surveyed in the labor rate survey;
- (3) The total number of shops surveyed in the labor rate survey;
- (4) The prevailing rate established by the insurer for each geographic area surveyed;
- (5) A description of the specific geographic area covered by the prevailing labor rate reported.
- (6) A description of the formula or method the insurer used to calculate or determine the specific prevailing auto body rate reported for each specific geographic area.

The attached labor rate survey complies with these requirements as follows:

- (1) The name of each auto body repair shop surveyed is included.
- (2) The address of each auto body repair shop surveyed is included.
- (3) The total number of shops surveyed at the time of this submission was 2,441.
- (4) The prevailing rate established by Coast National Insurance Company, 21st Century Centennial Insurance Company, and Farmers Specialty Insurance Company for each geographic region surveyed is any rate, in the best business judgment, experience, and expertise of these companies, that falls within the range of values surveyed.
- (5) The specific geographic area covered by the prevailing labor rate reported will be:
 - a. For metro areas, the specific city and surrounding communities.
 - b. For non-metro areas, the specific community.
 - c. For an un-surveyed non-metro area, the specific community will be used.
- (6) The method Coast National Insurance Company, 21st Century Centennial Insurance Company, and Farmers Specialty Insurance Company has utilized in determining the prevailing rate is the use of any rate, in the best business judgment, experience, and expertise of these companies, that falls within the range of values surveyed for the specific geographic area.
