California Department of Insurance
Attention: Market Conduct Division
300 South Spring Street
Los Angeles, California 90013

To Whom It May Concern:

Pursuant to Insurance Code §758 and 10 Cal. Code of Regs. §2698.91, AAA Northern California, Nevada & Utah Insurance Exchange (hereinafter "AAA"), and its wholly-owned subsidiaries, Western United Insurance Company (hereinafter "Western United") and ACA Insurance Company (hereinafter "ACA") submit the following results of its updated 2011 Auto Body Labor Rate Survey.

In compliance with 10 Cal. Code Regs. §2698.91(c), AAA, Western United and ACA provide the following information:

1. AAA, Western United and ACA have updated and submit their 2011 Auto Body Labor Rate Survey (hereinafter "Survey"). The names and addresses of shops from the survey are set forth in the spreadsheet attached hereto as Exhibit A. The Survey is based on information obtained from approximately 1740 shops.

2. AAA originally organized the data in its Survey by county. Starting in 2005, in its Updated Survey, AAA organized the data by Metropolitan Statistical Areas (hereinafter "MSA") as developed by the Federal Office of Management and Budget. These areas are defined by urbanized areas with a population of 50,000 or more, plus adjacent territory that has a high degree of social and economic integration. When a county is not included in a MSA, the data is organized on a county basis. AAA believes that re-organization of this data into MSA's more accurately reflects the economic similarities of adjacent areas. The spreadsheet attached as Exhibit B sets forth the results of the Survey by MSA or county.

3. Based on the re-organization of the data, the average of all labor rates within a MSA or county was then increased by the inflation factor as determined by the Motor Vehicle Maintenance and Repair component of the Consumer Price Index as calculated by the Federal Government in order to reflect 2005 and 2006 price increases. Similarly, the inflation factor was again applied for calendar years 2007 through April 2011 using the All Urban Consumers component of the Consumer Price Index. This figure was then rounded to the nearest dollar. The prevailing labor rates established by the Survey are set forth by county and MSA, and type of work, in the spreadsheet attached hereto as Exhibit B.

4. Based on a variety of factors, the Survey is not applied to determine prevailing labor rates in the following counties:

- Imperial
- Inyo
- Kern
- Kings
- Los Angeles
- Mono
- Orange
- Alpine
- Sierra

- Riverside
- Santa Barbara
- San Bernadino
- San Diego
- San Luis Obispo
- Tulare
- Ventura
- Colusa

Sincerely,

Eric D. Andel, Manager
Claims Policy and Standards
925-279-2653

Attachments: Exhibit A - List of Repair Shops surveyed
Exhibit B - Prevailing labor rates by County and MSA
