

March 7, 2016

California Department of Insurance
Attn: Market Conduct Division
300 South Spring Street
Los Angeles, CA 90013

To Whom It May Concern:

Pursuant to Insurance Code §758 and 10 Cal. Code of Regs. §2698.91, CSAA Insurance Exchange, and its wholly-owned subsidiary CSAA General Insurance Company (hereinafter referred to as "CSAA") submit the following results of its 2016 Auto Body Labor Rate Survey.

In compliance with 10 Cal. Code Regs. §2698.91(c), CSAA provides the following information:

1. CSAA conducted a new labor rate survey in January 2013 (hereinafter "Survey"). CSAA invited 1259 auto-body repair facilities located throughout Northern and Central California to participate in its Survey. This did not include any facility that is a member of CSAA's Direct Repair Network. These facilities were asked to provide information on what labor rates their facility would charge to complete repairs to a vehicle owned by a customer who is also seeking competitive bids from other shops. Of the 1259 shops asked to participate in the Survey, 396 auto body shops chose to participate and provide the requested information. The names and addresses of the shops participating in the Survey are set forth in Exhibit A

2. CSAA organized the data by Metropolitan Statistical Areas (hereinafter "MSA") as developed by the Federal Office of Management and Budget. These areas are defined by urbanized areas with a population of 50,000 or more, plus adjacent territory that has a high degree of social and economic integration. When a county is not included in a MSA, the data is organized on a county basis. CSAA believes that organization of this data into MSA's more accurately reflects the economic similarities of adjacent areas. Exhibit B sets forth the results of the Survey by MSA or county.

3. The prevailing rate for each geographic area was established by taking the average of all rates reported by shops in that specific geographic area. To update the survey for 2016, the average of all labor rates within a MSA or county was then increased by the inflation factor as determined by using inflation data from the Bureau of Labor Statistics Consumer Price Index – All Urban Consumers component as calculated by the Federal Government in order to reflect annual price increases. This figure was then rounded to the nearest dollar. The prevailing labor rates established by the Survey are set forth by county and MSA, and type of work, in the spreadsheet attached hereto as Exhibit B.

4. Based on a variety of factors, the Survey is not applied to determine prevailing labor rates in the following counties:

- Alpine
- Del Norte
- Inyo
- Kings
- Lassen
- Mariposa

- Modoc
- Mono
- Sierra
- Tehama
- Trinity

Labor rates in these areas will be negotiated on a shop-by-shop basis.

Sincerely,

Yolanda Banda, Manager
Claims Policy and Standards
925-279-2309

Attachments: Exhibit A - List of Repair Shops surveyed
Exhibit B - Prevailing labor rates by County and MSA
