

Allstate Labor Rate Survey Cover Page

2016

- 1. The accompanying Allstate Excel Document contains Allstate's 2016 Labor Rate Survey Data. The methodology Allstate utilized for the Survey includes the most recent 2015 auto body shop labor rates. These rates are based upon estimates for actual claim repairs, agreed upon and accepted by the body shops for the automotive claim repairs.**
- 2. Allstate narrowed the data by removing all Allstate Direct Repair shops from the data.**
- 3. Allstate further narrowed the data to the most recent labor rate data we had on file for each remaining shop listed on the Survey.**
- 4. As required by law, the attached Survey includes: a) the names and addresses of the shops; b) the total number of shops surveyed; c) the prevailing rate for each geographic area; and, d) a description of the specific geographic area covered by the prevailing labor rate reported.**
- 5. All labor rates were calculated utilizing a median by market. There are 7003 auto body shops reflected in this Survey.**

Total Body Shops Surveyed: 7003

Market	City	Zip Code	Address	Shop	Paint Labor	P&M	Sheet Metal Labor
