RE: Auto Body Repair Labor Rate Study – First Quarter, 2016

**Safeco Insurance Company of America**  
**American States Preferred Insurance Company**  
**First National Insurance Company of America**

Dear Mr. Woo:

Enclosed please find Safeco's first quarter 2016 auto repair labor rate survey conducted pursuant to California Insurance Code section 758(c) and section 2698.91 of the California Code of Regulations. The survey results will apply to all Safeco affiliated insurers doing business in California.

A total of 330 repair facilities were surveyed. The survey was completed in February, 2016. The survey itself includes the name, address, zip code and territory description of each repair facility, and the prevailing rate that was calculated for each territory based on the data provided by the facilities. No direct repair program facilities were included in the survey. The cities included in each territory can be found in "Exhibit A" which is enclosed herewith.

The prevailing rate for each territory was determined based upon the most commonly occurring rate. If two or more rates were the most commonly occurring, the prevailing rate was determined by calculating the average of those rates.

Please advise if you have any questions or if further information is required.

Sincerely,

**John George**
