12. The Court has subject matter jurisdiction over this action pursuant to, *inter alia*, 28 U.S.C. § 1331 (federal question); and 28 U.S.C. § 1338(a) (action arising under the Patent Act).

13. Venue and personal jurisdiction are appropriate in this Court under 28 U.S.C. § 1400 because Defendants have committed acts of infringement in this District, and because a substantial part of the events giving rise to FGTL's claims occurred in this District.

58. The Defendants have sold or offered for sale in the United States Aftermarket Parts that were copied from Ford's original equipment designs covered by the FGTL Design Patents-in-Suit.

66. On May 15, 2013, NWI responded to FGTL's letter on the letterhead of UCC requesting additional information about the purchase, who reported their sales of parts covered by FGTL's patents and requesting a list of FGTL's patents. **Exhibit Q** is the May 15, 2013 letter to FGTL.

67. On May 21, 2013, FGTL's counsel sent a letter to NWI identifying NWI parts covered by FGTL's patents that NWI had sold, and attaching another list of FGTL's design patents. This list included the patents-in-suit. **Exhibit R** is the May 21, 2013 letter.

68. On June 11, 2013, FGTL's counsel sent a letter to NWI stating that NWI had not agreed to refrain from selling parts covered by FGTL's design patents. **Exhibit S** is the June 11, 2013 letter.

It is also reasonable to infer that Defendant' actions have been objectively reckless based on the facts set forth above, including that Defendants have sold Aftermarket Parts that are copies of the designs in FGTL's Design Patents-In-Suit and that Defendants have acknowledged the infringement and validity of the design patents in correspondence. The actions of the Defendants with regard to infringement of the FGTL Design Patents-in-Suit are willful such that FGTL is entitled to treble damages under 35 U.S.C. § 284.

75. FGTL has suffered damages as a result of the infringing activities of the Defendants and will continue to suffer such damages as long as those infringing activities continue.

77. Upon information and belief, Defendants are importing and selling additional automotive parts beyond those asserted in this complaint that infringe

FGTL patents. Defendants have made attempts to conceal these infringing activities from FGTL.

**UNITED STATES INTERNATIONAL TRADE COMMISSION
Washington, D.C.**

In the Matter of

CERTAIN AUTOMOTIVE PARTS

Inv. No. 337-TA-557

GENERAL EXCLUSION ORDER

The Commission has determined that there is a violation of section 337 of the Tariff Act of 1930 (19 U.S.C. § 1337) in the unlawful importation and sale of certain automotive parts that infringe the following design patents:

1. D496,890 ("the '890 patent") covering a vehicle grille;
2. D493,552 ("the '552 patent") covering a vehicle head lamp;
3. D503,135 ("the '135 patent") covering a bumper lower valance;
4. D497,579 ("the '579 patent") covering a bumper lower valance;
5. D496,615 ("the '615 patent") covering a vehicle side view mirror;
6. D502,561 ("the '561 patent") covering a vehicle tail lamp; and
7. D492,044 ("the '044 patent") covering a vehicle tail lamp.

Having reviewed the record in this investigation, including the written submissions of the parties, the Commission has made its determination on the issues of remedy, the public interest, and bonding. The Commission has determined that a general exclusion from entry for consumption is necessary to prevent circumvention of an exclusion order limited to products of named persons and because there is a pattern of violation of section 337. Accordingly, the Commission has determined to issue a general exclusion order prohibiting the unlicensed importation of infringing automotive parts.

The Commission has further determined that the public interest factors enumerated in 19 U.S.C. § 1337(d) do not preclude issuance of the general exclusion order, and that the bond during the Presidential review period shall be in the amount of 100 percent of the entered value of the articles in

question.

Accordingly, the Commission hereby **ORDERS** that:

1. Motor vehicle grilles covered by the '890 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as provided by law.

2. Vehicle head lamps covered by the '552 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as provided by law.

3. Lower bumper valances covered by the '135 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as provided by law.

4. Lower bumper valances covered by the '579 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as provided by law.

5. Vehicle side view mirrors covered by the '615 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as provided by law.

6. Vehicle tail lamps covered by the '561 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as

provided by law.

7. Vehicle tail lamps covered by the '044 patent are excluded from entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, for the remaining term of the patent, except under license of the patent owner or as provided by law.

8. Notwithstanding paragraphs 1 through 7 of this Order, the aforesaid automotive parts are entitled to entry into the United States for consumption, entry for consumption from a foreign trade zone, or withdrawal from a warehouse for consumption, under bond in the amount of 100 percent of entered value pursuant to subsection (j) of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337(j)), from the day after this Order is received by the United States Trade Representative as delegated by the President, 70 Fed. Reg. 43251 (July 21, 2005), until such time as the United States Trade Representative notifies the Commission that this Order is approved or disapproved but, in any event, not later than 60 days after the date of receipt of this Order.

9. At the discretion of U.S. Customs and Border Protection ("CBP") and pursuant to procedures it establishes, persons seeking to import automotive parts that are potentially subject to this Order may be required to certify that they are familiar with the terms of this Order, that they have made appropriate inquiry, and thereupon state that, to the best of their knowledge and belief, the products being imported are not excluded from entry under paragraphs 1 through 7 of this Order. At its discretion, CBP may require persons who have provided the certification described in this paragraph to furnish such records or analyses as are necessary to substantiate the certification.

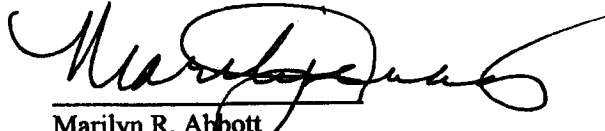

10. In accordance with 19 U.S.C. § 1337(l), the provisions of this Order shall not apply to automotive parts that are imported by and for the use of the United States, or imported for, and to be used for, the United States with the authorization or consent of the Government.

11. The Commission may modify this Order in accordance with the procedures described in section 210.76 of the Commission's Rules of Practice and Procedure (19 C.F.R. § 210.76).

12. The Secretary shall serve copies of this Order upon each party of record in this investigation and upon the Department of Health and Human Services, the Department of Justice, the Federal Trade Commission, and the Bureau of Customs and Border Protection.

13. Notice of this Order shall be published in the *Federal Register*.

By Order of the Commission.

Re: Ford Record 83208930 Cease and Desist New World International

Dear Mr. Tsai,

I oversee enforcement of Ford's patent portfolio. We have successfully enforced our patents before the United States International Trade Commission. Our investigations have uncovered that your company is selling components for Ford vehicles that may infringe one or more of Ford's US patents. Attachment A of this letter are receipts of articles purchased from your company. These items are protected by Ford patents. Attachment B of this letter is a list of patented parts. I have included both the Ford and Aftermarket Part Numbers to assist you in indentifying the infringing products.

Ford has granted LKQ Corporation the exclusive right to import and sell aftermarket products covered by the patents in Attachment B. LKQ has informed Ford that neither they, nor their distributors, have provided authorized products to New World International. The parts are not labeled as "refurbished", "salvaged" or otherwise authorized parts. Authorized parts should have a red sticker saying "Non-Original Equipment Aftermarket". Therefore, we ask that you immediately cease and desist from offering for sale, selling or importing products that infringe the patents in Attachment B. We also ask that you confirm in writing, no later than October 10th, 2011, which products you have removed from your inventory or other sales or marking literature. Our search of the Mississippi Secretary of State records did not list any company doing business under the New World International name so I could not directly communicate with your legal representative or registered agent. I would be happy to speak with your counsel if they have any questions.

Sincerely,

Please Note

FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g., jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits. Consult the applicable FedEx Service Guide for details. The estimated shipping charge may be different than the actual charges for your shipment. Differences may occur based on actual weight, dimensions, and other factors. Consult the applicable [FedEx Service Guide](#) or the FedEx Rate Sheets for details on how shipping charges are calculated.

Re: Ford Record 83208930 Cease and Desist New World International

Re: Ford Record 83208930 Cease and Desist New World International

Dear Mr. Porcari:

Your letter addressed to New World International, Inc. and dated May 13, 2013 does not give enough information for an accurate response. Once we have the needed information, we will formally reply to your May 13, 2013 letter. Until such time, your allegations are denied.

We need to know who reported that New World International, Inc. was selling parts you claim are covered by Ford design patents. We also need a list of the parts you claim to be covered by Ford design patents. The list must include identification of the applicable Ford Motor vehicles. I will appreciate a copy of the patents as well.

Is it Ford's position that New World International, Inc. cannot purchase the parts that you say are covered by Ford design patents from any manufacturer? If not, which manufacturers are authorized to sell such parts to our company? If manufacturers cannot sell these parts, then what companies are authorized to do so? Are there any restrictions by these companies on resale of these parts to our company? If so, what are these restrictions and when do these restrictions expire?

Finally, we understand that Ford does not restrict the manufacture of non-patented parts for sale to companies such as ours? If our understanding is incorrect, we need all of the details about these restrictions.

Your reply is expected by May 24, 2013.

Very truly yours,

Steve Culver
Executive Vice-President

RE: Ford Record 83208930 Cease and Desist New World International

Dear Mr. Culver,

Thank you for responding to my recent letter. You asked several questions better suited for your litigation counsel. If you are represented by counsel, please forward their contact information and so that I may communicate with them directly.

We purchased several articles from New World International that are covered by Ford design patents, including the following items:

- LH/RH Fenders – 2005-2009 Mustang Base and GT Ford Patent # D508,223

<u>Ford part</u>	<u>LKQ part #</u>
5R3Z16006AA	FO1240245
5R3Z16005AA	FO1241245
5R3Z16006BA	FO1240246
5R3Z16005BA	FO1241246

- Hood – 2004-2008 F150 Ford Patent # D489,299

<u>Ford part</u>	<u>LKQ part #</u>
4L3Z16612AA	FO1230240

You asked for a list of Ford design patents. Attached to the mailed copy of this letter is a partial list of parts covered by Ford design patents. You may obtain a copy of these patents through many websites including the US Patent and Trademark Office (www.uspto.gov) and Google (www.google.com/patents).

To prevent legal action, we require that New World International agree to refrain from importing or selling parts covered by Ford design patents. LKQ Corporation may be able to assist you in the disposal of your existing inventory. I have copied LKQ Corporation on this letter. They will contact you directly.

Sincerely,

Re: Ford Record 83208930 Cease and Desist New World International

Dear Mr. Culver:

You requested a license to sell items covered by Ford design patents. That is not available. You have not agreed to refrain from selling items covered by Ford design patents.

I have referred this matter to our litigation counsel. You should expect to be contacted by Brooks Kushman. I have asked LKQ corporation to contact you regarding disposing of your current inventory of infringing parts. You will be contacted by LKQ corporation as well.

Sincerely,

Re: Unauthorized Use Of Ford Intellectual Property
Our File No.: 83208930 FMCL0240A

Dear Ms. Byrnes:

We received your letter of November 6, 2013. Ford is extremely disappointed to find that, after over a year of correspondence, and our most recent letter, your client continues to offer products for sale covered by Ford's design patents without Ford's authorization. Our client's patience has worn thin.

We cannot continue any further discussions toward a resolution of this matter until your client takes immediate action to cease and desist sales of the unauthorized products. Attached is a list of unauthorized items we have identified on autobodyparts.com to date. By no later than **November 20, 2013**, these items must be removed from NWI's websites and you must provide your written assurance that they will no longer be offered for sale. If not, Ford will be forced to consider all avenues available to protect and enforce its intellectual property rights.

Nothing in this letter is intended to waive any rights, remedies, or claims of Ford, all of which are expressly reserved.

Very truly yours,

BROOKS KUSHMAN P.C.

Amy C. Leshan

Dear Mr. Porcari:

Our law firm represents New World International, Inc ("New World"). We have been asked by our client to review correspondence it has received from you and to respond to your previous letter seeking an acknowledgment that our client will honor the Ford Global Technologies, LLC ("Ford") design patents for certain after-market auto body parts.

The purpose of this letter is to provide the acknowledgement you seek. New World's policy is to honor the Ford design patents.

We trust that this acknowledgment satisfies your demand, and resolves the matter of which you complain.

Very truly yours,

Re: Letter dated November 13, 2013 from Amy Leshan;
Our File No. 679.002

Dear Ms. Leshan:

Responding to your letter dated November 13, 2013, and accompanying chart ("Chart"), be advised that our client, New World International, Inc. ("NWI") has removed the parts listed on the Chart from its website and assures Ford Motor Company and Ford Global Technologies, LLC ("collectively, "Ford") that it will not offer the listed parts for sale.

This assurance is given without admission by NWI (i) that the patents listed in the Chart apply to the parts listed in the Chart, a fact which NWI denies and will continue to investigate; or (ii) that NWI has infringed on the patents listed in the Chart, again a fact that NWI denies. Furthermore, this assurance is given without admission by NWI that any of the patents listed on the Chart are valid and enforceable, again, a fact which NWI denies.

NWI reserves all rights, remedies, or claims of NWI regarding the patents and parts listed on the Chart as well as matters discussed in previous communications. As for any part listed on the Chart, the assurances given in this letter shall automatically terminate as to any such part if (i) the patent alleged to cover the part expires; (ii) NWI determines that the patent listed on the Chart does not apply to the part; (iii) the patent alleged to apply to the part is determined not to be infringed, or to be invalid and/or unenforceable; or (iv) Ford authorizes NWI to sell the part.

Very truly yours,

A handwritten signature in black ink, appearing to read "Vicki Byrnes". The signature is fluid and cursive.
