Re: Protecting General Motors' Intellectual Property Rights

Dear Mr. Ramamurthy:

I represent General Motors Company and its wholly-owned subsidiaries (hereinafter, referred to collectively as, "GM") in various intellectual property matters. As you may know, GM is the owner of a plethora of world-famous trademarks, utility patents, design patents, and copyrights ("GM's intellectual property"). GM uses and licenses its intellectual property in the United States and around the world in connection with its motor vehicles, a wide range of parts and accessories, and vehicle repair services, among other things. GM takes policing and enforcement of its intellectual property rights seriously.

It has recently come to my attention that products infringing certain of GM's intellectual property are being made available for insurance estimation on your platforms. In particular, certain aftermarket seller's products that you list alongside GM's products are infringing GM's registered design patents. While your promotion of these infringing goods may have been inadvertent, this letter is intended to serve as notice that GM objects to this promotion.

LKQ Corporation is the only entity licensed by GM to manufacture aftermarket automotive parts covered by design patents issued to GM by the U.S. Patent and Trademark Office. Pursuant to that arrangement, LKQ is not licensed under all GM design patents issued in the United States but, rather, only design patents listed in the attached Exhibit A. Neither LKQ Corporation, nor any other entity, is licensed under the design patents listed in the attached Exhibit B.

Accordingly, with respect to products that are promoted and being offered for sale on your software estimation platforms, the only products that are authorized are those LKQ parts covered by the design patents listed in Exhibit A and, of course, parts manufactured, distributed and/or sold

directly by GM. All other parts covered by the patents listed on Exhibit B are unauthorized and therefore infringing.

GM therefore requests that you remove from your platforms:

- (1) All products protected by the design patents listed in Exhibit A, and not being offered by GM or LKQ; and
- (2) All products protected by the design patents listed in Exhibit B, and not being offered by GM.

I trust that you understand GM's need to protect our valuable intellectual property rights, and that you share in our desire to resolve this issue quickly and amicably. In this regard, please provide a written response to me (e-mail is acceptable) within fourteen (14) days from the date of this letter agreeing to remove the offending products from your platforms.

Nothing in this letter is intended to waive any rights, remedies, claims, causes of action or defenses of GM, all of which are expressly reserved.

Thank you for your prompt attention to this matter.

Sincerely,

A handwritten signature in cursive script that reads "Angela K. Caligiuri".

Angela Caligiuri
Counsel
