

Connecticut Department of Motor Vehicles  
Commissioner Bulletin

**NOTICE TO LICENSED REPAIRERS**

Please allow this notice to serve as a reminder that pursuant to Connecticut General Statutes § 14-52, only new car dealer's, a used car dealer's, a repairer's or a limited repairer's license may engage in the business of repairing motor vehicles.

This Department expects that all repairers licensed under the Department's jurisdiction will endeavor to repair vehicles safely and in compliance with available professional guidelines, including but not limited to guidance from the original equipment manufacturer and related service bulletins. All repair decisions should come from a licensed repair professional in consultation with the vehicle owner.

Licensed repairers are responsible for the quality and safety of each repair, and should always be mindful of, and guided by, practices and procedures that protect the wellbeing and safety of the motoring public.
